And when one hundred representative men set their minds to any undertaking, something is going to happen. So you can put it down that no rural delivery service will be discontinued in Barton county by reason of poor roads. A recent visit of a good-highways boosting company of automobile owners is credited with the incentive to this convention at Lamar. Naturally, the man who owns an automobile likes to see smooth highways, but in real, practical, everyday benefits, the farmer is the man who will profit to greatest extent from the good roads movement.
